VEDA GURUKULAM

Vedas are the oldest texts in any Indo-European language. The Vedas are believed to be the divine knowledge received from God to four Rishis at the start of human creation. Today there are only a few surviving vedic scholars in Kerala who memorized atleast a Veda (Vedas are four in numbers) due to our neglect of our rich culture. Our modern lifestyle and constant attack overtly and covertly by other religious groups have systematically degraded our belief in our old teachings and knowledge which has time and again proved far superior to modern science.

AIM AND OBJECTIVE

It is our firm view that without a strong AryaSamajGurukul network Vedic Dharma can not be strengthened in Kerala. We have established a Veda Gurukulam in Kerala to propagate the vedic views of Arya Samaj and Maharshi Dayanand. The average monthly expenses of this Vedic Gurukul can only be met with the kind donation from people like you.

Veda Gurukulam has taken the initiative to educate and equip the young generation to master Vedic knowledge by mainly propagating the vedic views of Arya Samaj and Maharshi Dayanand Saraswathi. The Gurukulam provides free food, accommodation and vedic education to interested students irrespective of caste or creed. Formal education is also provided to these students under the Government of India NIOS scheme which will help the students pursue a career in mainstream.

VEDA GURUKULAM

Any civilization can only stay alive, when it lives in a society.. Now our society has almost forgotten our ancient Vedic culture and our adversaries are taking the advantage of the ignorance in our society. In Kerala the Vedic religion is facing tough challenges from all corners. The anti vedic worships, thanthric rituals superstitions etc. are much prevalent here. You may be aware that Kerala is in the serge of massive Christian/Islamization activities. This results in mass conversion of poor, downtrodden, unemployed and helpless Hindus (majority of them are Adivasis and so called Dalits) to Islam/Christianity. Southern Kerala is under the grip of Christian missionaries and Malabar region (North Kerala) is now slowly becoming a muslim majority area. Foreign fund and support is pouring lavishly for this purpose.

AIMS AND OBJECTIVE

It is our firm view that without a strong AryaSamajGurukul network Vedic Dharma can not be strengthened in Kerala. We have established a Veda Gurukulam in Kerala to propagate the vedic views of Ama Samaj and Maharshi Dayanand. We have also launched an online web portal 'vedagurukulam.org' to promote vedic education to the masses. The average monthly expenses of this Vedagurukulam can only be met with the kind donation from people like you.
